THE PROCEDURE FOR REVIEWING MANUSCRIPTS

submitted to the journal

"International journal of veterinary medicine"

1. Manuscripts all articles submitted to the journal are reviewed.
2. Responsible editor within 3 days notifies authors of receipt of the article.
3. All articles are censored at the program Antiplagiat.Ru (extended version). Articles with originality less than 80% of the reviews are not accepted. Manuscripts that do not meet the criteria for scientific peerreview, will not be published.
4. Executive editor determines the manuscript to the journal requirements.
 - 4.1. Materials that do not meet these requirements are returned to the authors indicating the reasons for rejecting manuscripts.
 - 4.2. Materials confirming to these conditions shall be sent to reviewing members of the editorial Board supervising this subject.
 - 4.3. If necessary for review may be invited recognized experts in the relevant field of science.
5. Reviewers are notified that the manuscripts are the intellectual property of the authors and are reportedly not subject to disclosure. Reviewers are not allowed to make copies of articles for their needs.
6. The review is confidential.
 - 6.1. The review is given to the author upon his written request without a signature and the name, position and affiliation of the reviewer.
 - 6.2. The review is available upon request from the expert councils of high attestation Commission of the Russian Federation.
7. The review should reflect the evaluation:
 - the relevance of the topic and originality of its disclosure
 - theoretical and practical significance of the article
 - the validity formulated by the authors conclusions
 - the correctness of the use of the mathematical apparatus
 - clarity and understandability for the reader style of presentation
 - completeness and correctness of the list of references

In the final part of the review must be given a clear recommendation for its publication in the submitted form, or the need for its refinement and processing.

8. The article is reworked by the authors to be reviewed again along with its original version and in the shortest possible time. Article, delayed for more than 3 months or those requiring another revision will be considered as newly submitted.
9. The decision on expediency of the publication after reviewing is taken by the editor-in-chief, and if necessary - by the editorial Board for the formation of the next issue of the magazine.
10. Executive editor informs the author about the decision on the article.
11. The maximum review period is from the date of receipt prior to making a decision is 1 month.
12. Reviews of the received materials are stored for 5 years.
